

# MOONSHINE YARROW

ACHILLEA TAYGETEA 'MOONSHINE'

SUN

THIS BEAUTIFUL YARROW WILL LIGHT UP YOUR GARDEN! THE BRIGHT YELLOW UMBELS EMERGE ABOVE FINELY CUT GRAY FOLIAGE IN SUMMER AND ACT AS A BEACON FOR WAYWARD BUTTERFLIES WHO USE THEM AS LANDING PADS IN ORDER TO SIP THEIR NECTAR. ENTIRELY RESISTANT TO THE BROWSING OF DEER, THIS IS A LONG LIVED AND OLD-RELIABLE PERENNIAL THAT BRIGHTENS DRY, ROCKY SPACES FOR THE DURATION OF ITS LONG BLOOM TIME. TOLERANT OF MANY SOIL TYPES, IT WILL GROW EQUALLY WELL IN REGULARLY WATERED GARDEN SPACES AS IN DRY GARDENS. REACHING 1 1/2'-2' TALL BY 2-3' WIDE, IT COMBINES BEAUTIFULLY WITH LAVENDERS AND GRASSES.

ZONES 3-9
