

WAYNE RODERICK SEASIDE DAISY

ERIGERON GLAUCUS 'WAYNE RODERICK'

FAMILIAR TO NATIVE PLANT ENTHUSIASTS, WAYNE RODERICK SEASIDE DAISY HAS EARNED ITS REPUTATION FOR ITS LONG BLOOM SEASON, DROUGHT-TOLERANCE, AND DEER RESISTANCE. A LOVELY LITTLE PLANT, IT REACHES 1' TALL AND UP TO 3' WIDE, PRODUCING MULTITUDES OF PALE LAVENDER DAISIES ALONG THE WAY. ATTRACTIVE TO NATIVE BEES AND BUTTERFLIES, AND WORTH PLANTING FOR THAT REASON ALONE, SEASIDE DAISY, WITH ITS TIDY, EVERGREEN FOLIAGE AND LONG BLOOM TIME, MAKES A GREAT FRONT OF THE BORDER PLANT OR WALKWAY EDGER. A NATIVE GARDEN ESSENTIAL!

ZONES 5-10

MOSTLY SUN TO PART SHADE
