

# HELENSFLOWER

## HELENIUM AUTUMNALE 'RED & GOLD'

A COLORFUL LATE SEASON BUTTERFLY ATTRACTOR, HELEN'S FLOWER, OR SNEEZEWEED, IS A TALL PERENNIAL WITH LOVELY RAYED BLOSSOMS IN SHADES FROM GOLD, THROUGH ORANGE TO DEEP MAHOGANY. JUST IN TIME FOR AUTUMN BOUQUETS, THE 2-3" BLOSSOMS ON LONG, STURDY STEMS HOLD WELL IN A VASE AND PERFECTLY ECHO THE SHADES OF THE HARVEST SEASON. A TALL PERENNIAL, REACHING 4-5 FEET TALL AT MATURITY, IT IS QUITE THE PRESENCE IN THE LATE SUMMER THROUGH FALL GARDEN. HEAT AND CLAY TOLERANT, BUT NEEDS MOIST SOIL TO PERFORM AT ITS BEST, AND EVEN DOES WELL IN WET SOIL.
