

KENT BEAUTY OREGANO

ORIGANUM ROTUNDIFOLIUM 'KENT BEAUTY'

ONE OF THE PRETTIEST OF THE ORNAMENTAL OREGANOS, 'KENT BEAUTY' IS A DELICATE THING WITH PENDULOUS, LAYERED FLORAL BRACTS THAT RESEMBLE HOPS OR, SOME SAY, PINK/GREEN PINE CONES. A BEAUTIFUL ADDITION TO CONTAINERS AND HANGING BASKETS, IT IS EQUALLY NICE IN ROCK GARDENS AND TRAILING OVER WALLS. REACHING 6-8" HIGH BY 12-18" ACROSS, IT WILL FILL SMALL NOOKS AND CRANNIES IN DRY-ISH SOIL WHERE DRAINAGE IS GOOD. DEER RESISTANT, IT CAN BE PLANTED OUTSIDE OF PROTECTED AREAS, BUT WHEREVER IT'S PLANTED, IT SHOWS ITS PRETTY BLOSSOMS BEST WHERE ITS TRAILING HABIT CAN BE APPRECIATED. THE BLOOMS ARE PARTICULARLY NICE AS DRIED FLOWERS WHERE THEY HOLD THEIR FORM WELL. A LONG BLOOMING PERENNIAL.
