

# RAMANAS ROSE

## ROSA RUGOSA

THIS HEIRLOOM ROSE IS ABOUT AS TOUGH AS THEY GET. THE WRINKLED, LEATHERY, EMERALD GREEN FOLIAGE BEAUTIFULLY CONTRASTS THE MAGENTA-TISSUE PAPER BLOOMS AND IS VIRTUALLY IMMUNE TO LEAF SPOT DISEASES. BLOSSOMS ARE HIGHLY FRAGRANT AND NUMEROUS AND ARE FOLLOWED BY LARGE, VITAMIN C RICH HIPS SUITABLE FOR JAMS, JELLIES, AND TEA. THE SHRUB IS LARGE, TO 6' HIGH AND AS WIDE (OR WIDER!) AND SPREADS MERRILY SUCKERING ITS WAY ALONG. MAKE SURE TO GIVE IT SOME SPACE! DROUGHT-TOLERANT WITH THE BEST OF THEM, IT IS EASY TO GROW AND DEMANDS LITTLE IN THE WAY OF SOIL QUALITY OTHER THAN DECENT DRAINAGE. OLD FASHIONED AND WONDERFUL.

ZONES 2-10
