

POZO BLUE SAGE

SALVIA CLEVELANDII X LEUCOPHYLLA 'POZO BLUE'

IF YOU HAVEN'T ENJOYED THE SCENTED FOLIAGE OF THE NATIVE SAGES, YOU ARE MISSING OUT! THEIR STRONG PERFUME IS A BIT MUCH FOR SOME AT CLOSE PROXIMITY, BUT AT A DISTANCE, FILLS THE AIR WITH A LOVELY FLORAL SCENT, ESPECIALLY AFTER A RAIN. POZO BLUE IS A HYBRID OF 2 CALIFORNIA NATIVE SAGE SPECIES, BUT GROWS VERY LIKE A TRADITIONAL CLEVELAND SAGE. ITS MOUNDED, EVERGREEN FORM, WHICH REACHES AROUND 3-4' TALL AND WIDE, IS TOPPED IN EARLY SUMMER BY LOVELY, BLUE, BUTTERFLY AND BEE ATTRACTING BLOOMS THAT FORM SPHERICAL SHAPES SPACED ALONG THE TALL BLOOM STALKS. A BIT MORE COLD HARDY AND EASIER TO CULTIVATE THAN TRADITIONAL CALIFORNIA SAGES, IT MAINTAINS HIGH TOLERANCE TO BOTH DROUGHT AND DEER. WONDERFUL!
