

EVERGREEN HUCKLEBERRY

VACCINIUM OVATUM

ONE OF THE MOST REFINED LOOKING CALIFORNIA NATIVE SHRUBS, EVERGREEN HUCKLEBERRY HAS GLOSSY, DARK GREEN FOLIAGE THAT EMERGES A PRETTY BRONZY RED. NATIVE TO COOL FOGGY SITES AND MOIST FOREST SETTINGS, IT NEEDS SHELTER FROM THE WORST OF THE SUMMER SUN AND A NICE LAYER OF ORGANIC MULCH TO THRIVE. IT LOVES THE SAME WELL DRAINED ACID SOILS THAT RHODODENDRONS DO. THE PINK BLOSSOMS ARE FOLLOWED BY ABSOLUTELY DELICIOUS HUCKLEBERRIES, SO YOU WILL BE REWARDED FOR KEEPING IT HAPPY! SLOW GROWING, BUT GROWS TALLER WHERE IT IS MOST SHADED, SOMETIMES UP TO 8', WHILE IT STAYS LOWER IN BETTER LIT AREAS. A SUBTLE BEAUTY!

PARTIAL SHADE TO SHADE
