

SANDHILL SAGE

ARTEMESIA PYCNOCEPHALA 'DAVID'S CHOICE'

CALIFORNIA NATIVE SANDHILL SAGE FORMS A DENSE, SILVER MOUND OF EVERGREEN FEATHER SOFT FOLIAGE SO TOUCHABLE, YOU'LL WANT TO PET IT ALL DAY. DROUGHT-TOLERANT AND DEER RESISTANT, ITS LOW FORM (UP TO FOOT IN HEIGHT) MAKES A PERFECT ACCENT PLANT FOR HOT, EXPOSED AREAS. THE FLOWERS THAT RISE ABOVE THE FOLIAGE ARE NOT SHOWY AND CAN BE REMOVED TO MAINTAIN THE NEAT FORM OF THE PLANT. LOVELY AS A PART OF A MONOCHROMATIC TEXTURE GARDEN IN COMBINATION WITH OTHER SILVER AND WHITE LEAF PLANTS! NEEDS GOOD DRAINAGE AND NO OVER-WATERING TO THRIVE. DON'T BABY THIS ONE! SLOPES ARE A GREAT PLACE FOR THIS DEEP-ROOTED SPREADER OF UP TO 3" ACROSS!

USDA ZONES 7-10
